Test Report

Start: 2019-01-26 13:20:12

222 tests -- 222 passed / 0 failed / 0 pending

C:\Users\Ørjan\Documents\hverdagshelt-team-6\server\tests\case_subscriptionsTest.js 0.433s		
Create a subscription to a case	*409 status code for POST /api/cases/:case_id/subscribe to a case already subscribed to*	passed in 0.02s
Create a subscription to a case	*400 status code for POST /api/cases/:case_id/subscribe without valid id*	passed in 0.004s
Create a subscription to a case	*400 status code for POST /api/cases/:case_id/subscribe without body*	passed in 0.003s
Create a subscription to a case	*401 status code for POST /api/cases/:case_id/subscribe without valid token*	passed in 0.003s
Create a subscription to a case	*403 status code for POST /api/cases/:case_id/subscribe without token*	passed in 0.003s
Create a subscription to a case	*200 status code for POST /api/cases/:case_id/subscribe*	passed in 0.011s
Delete a case_subscriptions	*200 status code for DELETE /api/cases/:case_id/subscribe/:user_id*	passed in 0.007s
Delete a case_subscriptions	*403 status code for DELETE /api/cases/:case_id/subscribe/:user_id without token*	passed in 0.003s
Delete a case_subscriptions	*401 status code for DELETE /api/cases/:case_id/subscribe/:user_id without valid token*	passed in 0.002s
Delete a case_subscriptions	*400 status code for DELETE /api/cases/:case_id/subscribe/:user_id with invalid id*	passed in 0.004s
Find all case_subscriptions for a private user	*400 status code for GET /api/cases/subscriptions/:user_id without valid id*	passed in 0.007s
Find all case_subscriptions for a private user	*403 status code for GET /api/cases/subscriptions/:user_id without token*	passed in 0.006s
Find all case_subscriptions for a private user	*200 status code for GET /api/cases/subscriptions/:user_id*	passed in 0.008s
Find all case_subscriptions for a private user	*401 status code for GET /api/cases/subscriptions/:user_id without valid token*	passed in 0.003s
Find all cases a private user has subscriptions to	*403 status code for GET /api/cases/subscriptions/:user_id/cases without token*	passed in 0.004s
Find all cases a private user has subscriptions to	*200 status code for GET /api/cases/subscriptions/:user_id/cases*	passed in 0.009s
Find all cases a private user has subscriptions to	*400 status code for GET /api/cases/subscriptions/:user_id/cases without valid id*	passed in 0.008s
Find all cases a private user has subscriptions to	*401 status code for GET /api/cases/subscriptions/:user_id/cases without valid token*	passed in 0.004s
Find all cases where a user is not up to date	*400 status code for GET /api/cases/subscriptions/:user_id/cases/is_up_to_date without valid id*	passed in 0.004s
Find all cases where a user is not up to date	*200 status code for GET /api/cases/subscriptions/:user_id/cases/is_up_to_date*	passed in 0.007s

Find all cases where a user is not up to date	*403 status code for GET /api/cases/subscriptions/:user_id/cases/is_up_to_date without token*	passed in 0.003s
Find all cases where a user is not up to date	*401 status code for GET /api/cases/subscriptions/:user_id/cases/is_up_to_date without valid token*	passed in 0.002s
Update a case_subscriptions	*400 status code for PUT /api/cases/:case_id/subscribe without body*	passed in 0.003s
Update a case_subscriptions	*200 status code for PUT /api/cases/:case_id/subscribe*	passed in 0.009s
Update a case_subscriptions	*403 status code for PUT /api/cases/:case_id/subscribe without token*	passed in 0.003s
Update a case_subscriptions	*401 status code for PUT /api/cases/:case_id/subscribe without valid token*	passed in 0.002s
Update a case_subscriptions	*400 status code for PUT /api/cases/:case_id/subscribe without valid case_id*	passed in 0.004s
